

CAUSE
Societies structures, inequality, ACE's, educational underachievement, misuse of substances, disability & lack of opportunity, community and family support has led to Edinburgh to have significant levels of social isolation, social exclusion & poverty with insufficient community support.

MISSION
We create an inclusive person-centred environment where people feel empowered to develop skills, build positive relationships and enjoy an ongoing sense of belonging.

IMPACT
We believe in a world where people reach their full potential, feel positive about themselves, valued and connected to others and the wider community.
